We can furnish a wonderful line of garden ornaments from the best sources. Please write or stop at our office.

BALLING AND BURLAPPING SCHEDULE

If balling and burlapping is desired for materials other than Evergreens and items not listed B & B, the following balling and burlapping schedule, which is net, will guide.

Shrubs and Dwarf Trees

1½-3 ft.	\$.60
3-4 ft.	1.00
4-5 ft.	1.45
5-6 ft.	1.75
6-7 ft.	2.50
7-8 ft.	3.50
8-9 ft.	4.70
9-10 ft.	6.10

Shade Trees

1¼-1½ in.	\$ 2.50
1½-1¾ in.	3.00
1¾-2 in.	4.00
2-2½ in.	6.00
2½-3 in.	8.20
3-3½ in.	11.00
3½-4 in.	17.00
4-4½ in.	25.50
4½-5 in.	34.00
5-5½ in.	44.00

LARGE TREE MOVING

We are equipped to move large trees during the winter season; if interested please call or write.

ILLUSTRATED GARDEN TALKS

We have available interesting color slides on several subjects for lectures before garden clubs and other groups. Write for further information.

Fine Evergreens

Evergreens have always been one of our specialties. The quality of our soil permits digging with a solid ball of earth, and frequent transplanting or rootpruning develops the fine root-system which is so essential to successful transplanting of evergreens.

All evergreens listed here will be supplied with ball of earth (B & B).

JUNIPERUS

While the Pfitzer Juniper tolerates shade quite well, the family in general likes sun and can stand dry, hot situations.

	Each	10 Rate
chinensis columnaris glauca (Blue columnar Juniper)

2-3 ft.	4.50	4.25
3-4 ft.	6.50	

EVERGREENS (Continued)

TAXUS (Yew)

Over twenty years ago, when the Yew was little used in the Middle West, we made plantings of this valuable evergreen, convinced that it would become the leading evergreen in the Middle West if not in the entire North. Constant trials gave us a thorough knowledge of this plant in midwest conditions and we now possess one of the finest collections. Taxus will grow under most conditions: while evergreens usually prefer sun, it does especially well in shade and stands city conditions better than any other evergreen of which we know. It also makes a beautiful hedge and can be trimmed into nearly any form. Taxus likes a rich loam; if soil is stiff clay, it is advisable to add peat moss. A good helping of rotted cow manure or Driconure mixed with the soil around the plant is very beneficial.

	Each	10 Rate
cuspidata (Spreading Yew)		
12-15 inch	3.50	3.25
15-18 inch	5.00	4.75

GARDENING BOOKS

We shall be glad to advise you as to the best gardening books on subjects in which you are interested. We can furnish any book in the gardening line.

OUR “STARTED” GARDEN ROSES

A PLAN ORIGINATED FOR
YOUR CONVENIENCE
AND PLEASURE.

Sturdy two year old Northern Grown Roses, started during winter months in large six inch pots. By the time you get them (from May 1st on) they are thoroughly rooted and often already budded. You tip them out of the pot and plant them in your garden for **immediate results**. No fatalities in these “started” roses.

Our roses are almost a season ahead of ordinary dormant plants and besides, you can plant them anytime you please. However, it is well to place your order as soon as possible.

NEWEST AND FINEST STANDARD VARIETIES.
We admit that we are fond of roses and that we take a great deal of pride in our assortment. We try all promising introductions and if suitable to this climate and of outstanding value, we offer them to you.

ASK FOR OUR SPECIAL ROSE FOLDER

FRENCH HYBRID LILACS and SPECIES

In the World's Finest New and Standard Varieties.

"ON THEIR OWN ROOTS"

For this year we are able to offer French Hybrid Lilacs to color only.

LILAC SPECIES

microphylla.	Grows 5-6 ft., small foliage carrying a wealth of rosy-red flowers when the tulips bloom. Very showy.		
	3-4 ft.	2.50	2.40
Prestonae Desdemona.	Single pink.		
	2-3 ft.	1.75	1.40
Prestonae Sylvia.	Single pink.		
	5-6 ft.	3.50	3.40
rothomagensis (Chinese Lilac)	Deep lavender blossoms.		
	2-3 ft.	1.25	1.20
Sweginzowi albida.	The flowers of this new hybrid resemble clusters of pink pearls. It is a cross between S. Sweginzowii Superba and S. Wilsonii. Tall slender stems of a dark bronze color, lenticellate, carrying a profusion of much branched panicles of the most elegant character. The large long tubed flowers with reflexed lobes are of a delicate pale pink, passing to white, very sweet-scented.		
	3-4 ft.	1.25	1.20
	4-5 ft.	1.75	1.65
vulgaris (Common Lilac)			
	2-3 ft.75	.70
	3-4 ft.	1.25	1.20
	4-5 ft.	1.75	1.65
	5-6 ft.	2.50	2.40

ROSE-FLOWERING CHERRIES

Our Rose Flowering Cherries have proven perfectly hardy almost anywhere in the Middle West. We started growing this marvelous ornamental plant well over ten years ago and have never had the least bit of winter damage in the varieties we offer. We graft our own plants from mother plants raised in our nurseries and every year our Flowering Cherries are a sight to behold. You can have in your own garden as fine an array of bloom as the cherries along the mall in Washington.

Flowering Cherries do well in any well-drained soil.

If plants are desired with ball of earth, please see B & B Schedule in front of catalog.

Each 10 Rate

AMANOGAWA. Slim upright, light pink, semi-double flowers.

3-4 ft. 2.00 1.90

HISAKURA (Ichiyo). Large double rosepink blossoms.

Standard form Weeping Cherry (top grafted). A fountain of lovely single pink blossoms.

3-4 ft., branched from ground up..... 3.50 3.25

4-5 ft., branched from ground up..... 4.50 4.25

CHINESE FLOWERING CRABAPPLES

These graceful plants add a profusion of color to the garden in spring and brighten the fall picture with brilliantly colored fruit in shades of green, yellow, orange, scarlet, maroon, and crimson.

We grow most of our flowering crabs in bushform; if desirable this form can later be pruned to form picturesque tree shape.

Each 10 Rate

ATROSANGUINEA (Carmine Crab). Crimson bloom, yellowish apricot fruit.

3-4 ft. 1.50 1.40

4-5 ft. 2.00 1.90

CHINESE FLOWERING CRABAPPLES (Cont.)

10x20	200	1-1½ lbs.
20x50	1,000	5-6 lbs.
20x100	2,000	10-12 lbs.
40x100	4,000	20-25 lbs.
200x200	40,000	100-125 lbs.

PEAT MOSS

Practically as fine as any we ever imported, large solid bales.

LARGE BALE \$5.50

BUSHEL75

GENERAL INFORMATION

PRICES in this list cancel all previous listings and are subject to change without notice. Michigan State Sales Tax is to be added to orders from within the State.

HARDINESS OF STOCK. Grown in the heart of Michigan, our materials are extremely hardy.

STATE INSPECTED. Our nurseries are certified by the State of Michigan to be free from dangerous insects and dangerously contagious tree and plant diseases.

TERMS. Cash, unless other written arrangements are made at time of acceptance of order. Customers with established credit: 30 days net.

CLAIMS. When stock is not delivered by our truck, our responsibility ceases upon delivery of stock in good condition to transportation company. Claims for damage while stock is in transit should be made promptly to the transportation company.

GUARANTEE. Our stock is guaranteed to be true to name and of the quality and size described in this list. Since we have no control over planting or weather conditions, our responsibility ceases there. Stock planted and supplied by us will be replaced at half price if dead from natural causes before August 1st after the previous fall or spring of planting, provided the materials have received normal care, and provided payments have been made as arranged. Due to the labor scarcity, we must charge for labor of planting replacements. Shade Trees planted by us with frozen ball of earth, will, in case of death before August 1st after planting, be replaced at half prevailing price or half of purchase price will be refunded if we cannot duplicate original purchase. This guarantee excludes fatalities from tornado, severe drought, abnormal winter or other conditions over which we have no control. In no case shall we be responsible for more than the amount originally paid for the merchandise.

Above General Information refers only to stock sold at retail.

SUNDAYS. Closed Sundays except by appointment.

ONE VIGOROUS PLANT
that you know will thrive, and bloom true to description, is worth any amount of poor plants....no matter how little you pay for them.
